SUBJECT BOOKLET
2022 - 2024

What is the Digital Business Practitioner Qualification?

This qualification provides candidates with a high quality, industry-recognised qualification and is a vocationally related qualification that provides valuable opportunities for individuals to develop skills and gain underpinning knowledge and understanding which will support entry into the business digital workplace.

Who is it for?

Every single one of us will end up working in business of some description, be it in the public sector or in a private business. Some of you may even set up your own business.

OCR Business Technicals can support progress towards any future career. It can also be used as a vehicle to step up to Advanced Level Studies the following year

What will I study?

The qualification is for learners of 16 years or over who want to study digital business and includes the following:

Essentials of IT
Essentials of cyber bullying
Creating business solutions
Participating in a project
Pitching the product
Using social media channels for business
Using data analysis software
Creating visual business products

How will I be assessed?

Some units will involve external assessment whilst others require a portfolio of evidence.

See Mrs Stoddart for further details on the course.
